

How you can help your child at home:

- Counting out loud and counting groups of objects
- Comparing different sizes and naming shapes
- Taking part in Jubilee celebrations near you and letting us know what you do/find out
- Noticing changes in nature at this time of year.

This half term our learning theme is:

Off We Go - Time for A Jubilee!

This year marks the Queen's Platinum Jubilee. We will be working alongside the rest of the school to prepare our own community events to celebrate this achievement.
